Find and Fix Leaks, both Indoors and Outside in the Landscape

March 17-23, 2025
Fix a Leak Week

INDOORS

Take the Dye-Tab Challenge to help identify potential leaks and you could win a \$25.00 gift card.

[Click here to learn more about the Challenge](#)

OUTDOORS

FIND IT FLAG IT FIX IT

A CHECKLIST FOR YOUR LANDSCAPE

Look for issue	Description	How to check	What to do
☐ Leaks	Can occur at irrigation valves, connection points, joints, and sprinkler heads or drip irrigation lines.	Walk through the landscape while the system is running and look for water pooling on the surface or water spraying where it shouldn't.	Flag the location of each leak or break and contact an irrigation professional .
☐ Broken or missing sprinklers and drippers	Pedestrians or machinery can damage irrigation components. Damaged sprinklers can cause water to go where it shouldn't.	Run a test of the system and look for missing sprinklers, those that do not pop up fully, drip lines that have been cut or moved out of place, or small geysers.	Flag the broken component and contact an irrigation professional .
☐ Sprinklers aimed incorrectly	Sprinklers pointed toward walls and hardscapes miss the landscape and waste water.	Look for sprinklers that overspray or spray water onto areas outside the landscape.	In most cases, you can turn the nozzle to face the correct direction, or flag it for a pro to fix.
☐ Poor sprinkler coverage	Can cause over-watering in some areas of the landscape and dry spots in others.	Observe the distance of spray from one sprinkler to another; spray from one sprinkler should reach the adjacent one (known as head-to-head coverage).	Adjust the spray distance and direction of the nozzle to ensure head-to-head coverage or contact an irrigation pro ; sprinkler heads may need to be added or moved.

Get a head start in the landscape:

- **Find** issues early on
- **Flag** the areas where you find issues
- **Fix** those issues before they become a bigger problem

Don't feel like you can do it yourself? Click the QWEL logo below to **Find** a Certified Pro that can!
